Locally hand-crafted and finely finished tabletop desk (17" wide x 15" deep x 6.5" high) with lidded storage compartment constructed with beautiful tiger-stripe maple and rose-tinted cherry hard wood. Use as a writing desk or to display and read larger books, like the accompanying single-volume 1981 limited edition of Shakespeare's Plays in Quarto. The book uses advanced photography to make high quality reproductions of first edition Quartos of all Shakespeare's plays. Given their dates of "publication" (1594–1634) the Quartos are now very rare. They contained only one play each and were printed in small batches of 1200–1500 at a time. Most Quartos came from the Huntington Library, but also from Folger, British, and Bodleian libraries. These Quartos are absolutely fundamental to an understanding of Shakespeare in the study or in the theater.
