## 654 Visscher's View of London

In 1616, Claes Jansz Visscher, a Dutch artist, created a 6.5 foot-long engraving of London from the point of view of someone standing on the Thames' south bank. Nevertheless, this print presents London before the Great Fire of 1666, capturing details that would have been lost forever. This vintage print is ready for framing, packaged on acid-free foam-core backing.
